

If You Like SecureCheck, Let Washington, D.C. Know!

I understand that the U.S. Treasury Department seeks public comment on whether direct deposit of government benefits, such as Social Security, SSI and others, should continue to be available through currency exchanges and check cashers.

I use the SecureCheck Direct Deposit service through my check casher for my government benefits, and I like the service just the way it is. I want to keep using SecureCheck Direct Deposit through my check casher instead of doing my business at a bank or other financial institution. Please allow my check casher to continue being a choice for me for my direct deposit service. Thank you.
